UV 106 - Plastic Weld

à,¿850.00

UV 106 is a flexible, high viscosity, UV cure adhesive, particularly suited to bonding plastics including polycarbonate, acrylic, polystyrene, and rigid or flexible PVC. It is also produce flexible bonds to glass and metals.

Features:

Plastic compatible UV/light cure Non yellowing Exceptional speeds Flexible Bonds polycarbonate, acrylic UV/ High intensity Visible Light cure system

Sizes:

50ml bottle 250ml bottle 1ltr bottle Bulk 20ltrs
